## MA DIGITAL NARRATIVES - 2<sup>nd</sup> CALL FOR APPLICATIONS for applicants from EU and countries with visa exemption

Dear Mrs Kyriazopoulou,

The second cohort of the international Master's Program Digital Narratives at the ifs internationale filmschule köln will start this October 2018. For applicants from countries with visa exemption we offer a 2nd call for applications.

We are looking for young, talented media professionals from the fields of film, online, communication, design, games, television, theatre, or literature who are interested in multi-platform storytelling.

Our first year projects range from topics such as the consequences of climate change in the Peruvian Andes, transmedia theatre production in Quebec to research on the dramaturgy of 'rabbit holes' in augmented reality games.

We'd be delighted if you are interested in our MA program and we would ask you to display the information materials in your public areas.

For more information on studying at the ifs and the application details see: [www.filmshule.de/ma-digitalnarratives](http://www.filmshule.de/ma-digitalnarratives)

With kind regards,

Marc Minneker
