

4 MEĐUNARODNI KONGRES I IZLOŽBA

ODRŽIVA ARHITEKTURA ENERGETSKA EFIKASNOST

8.-10. oktobar 2021. | Beograd | Srbija

THE 4TH INTERNATIONAL CONGRESS SUSTAINABLE ARCHITECTURE - ENERGY EFFICIENCY

The 4th International Congress SUSTAINABLE ARCHITECTURE - ENERGY EFFICIENCY is going to be held from 8th to 10th October, 2021 in the renowned and attractive space of the Yugoslav Cinematheque with the opening ceremony at 7p.m. The Congress includes appropriate lectures, architects and sponsors' exhibitions, workshops and the contest named "MICRO ECO HOUSE 2021" intended for young architects, designers and landscape architects under the age of 30, as well as the students of corresponding faculties. The Congress is organized by EKOKULT+ Association and ECO HOUSE Magazine, a magazine about eco architecture and culture, in partnership with the Faculties of Architecture in Belgrade, Zagreb and Podgorica.

Congress SUSTAINABLE ARCHITECTURE - ENERGY EFFICIENCY covers several segments: lectures by the world's best architects and workshops for architects, students, PhD students and experts in tangential fields, as well as an exhibition of projects and realization of lecturers, which is going to be opened in the hall of the Yugoslav Cinematheque from the 8th to 10th October.

The Congress is going to involve significant topics, with the emphasis on sustainable, environmentally and energy efficient approach in architecture with the use of renewable energy sources, appropriate materials, modern technologies and construction systems. The lecturers, well-known in these fields of work, are going to bring closer the world's contemporary trends in architecture, design and visual arts to the domestic public using recent projects and studies, through corresponding sustainable and ecological approach to creative processes and new methods in architectural design, using renewable energy, pure and energy efficient, green technologies, non-polluting and recyclable materials. New technologies, products and materials used in environmentally friendly, sustainable and energy efficient architecture are going to be seen at the sponsors' exhibition.

The Congress lecturers are:

Kate Gould / KATE GOULD GARDENS / England
Dries Vens & Maarten Vanbelle / VENS VANBELLE / Belgium
Sonja Radović Jelovac / STUDIO SYNTHESIS / Montenegro
Juri Troy / JURI TROY ARCHITECTS / Austria
Saša Begović / 3LHD / Croatia
Peter Kuczia / PETER KUCZIA / Germany
Aljoša Dekleva / DEKLEVA GREGORIC ARCHITECTS/ Slovenia
Mitesh Dixit / DOMAIN / the USA
Zoran Abadić / 1X2STUDIO / Serbia
Fokke Moerel / MVRDV / the Netherlands

Two workshops are going to be held as a part of the Congress:

Workshop No 1: Kate Gould, world-famous landscape architect and designer, winner of numerous awards

Workshop No 2: Sasa Begovic, an architect, urbanist, designer and professor at the Faculty of Architecture, the University of Zagreb, and the founder of prominent architectural studio named 3LHD.

Early applications, regarding buying tickets with the discount of 30%, are available until 01/09/2021. The price of tickets is going to be in the full amount after this date. There is also an opportunity of buying tickets at special prices for students. More information could be found on the website www.congress-saee.com.
